FIGHTING ON THE RED BOOK

Developments in Quay
Trial.

RECORDS ARE GONE.

Hinted That Bank Books
Were Burned.

Quay's Attorneys are Zealously
Guarding Against the
Red Book.

PHILADELPHIA, Pa., April 13.—The fourth day in the trial of ex-United States Senator Quay on the charge of conspiracy began promptly at 10 o'clock. The prospect of an endless line of testimony relative to the identification of entries in more than 100 books of the Peoples' bank, through the expected inability of counsel to decide upon a plan to pick out certain books and thus save time, was responsible for a light attendance at the opening hour. Mr. Quay arrived early and still wore the same look of unconcern.

He busied himself for about five minutes in looking over some mail. Counsel on both sides informed Judge Biddle that they had agreed upon a plan regarding the identification of the entries in the mass of books, which would save considerable time. In pursuance of this all the books were brought into the court.

A. L. Taber, receiving teller of the bank, testified to the period of time in which he made entries in the bank's book, when, respectively, bookkeeper and receiving teller. He said he had known Cashier Hopkins to make entries in the receiving teller's credit book, and that the cashier had made entries in other books. The witness testified to the correctness of his entries, except upon occasions when he had made clerical errors.

They were always corrected. During the examination of this witness it was developed that the consul of both sides had agreed to abide by testimony as to the time covered in the books instead of personal identification of the entries themselves.

Under cross-examination by Mr. Shields, the witness said Mr. Hopkins made entries in the cash book, general ledger, discount book, foreign and domestic bill books, and cashier's check book. The books are incomplete, more than fifty dating prior to 1894 being missing.

Mr. Shields intimated that they had been burned.

It was evident from the district attorney's questioning that he was leading to a connection between the "red book," which has not yet been admitted, and the other books of the bank. The lawyers for the defense were on the alert, and every question leading in this direction was fought against.

MOLINEUX SCORES A POINT.

The Case Must be Resubmitted to the Grand Jury.

WATERGOWN, N. Y., April 13.—Justice Pardon C. Williams last night handed down his decision in the motion made to discharge the indictment against Roland Molineux, charged with sending poison to Harry Cornish, which caused the death of Mrs. Adams in New York last December. Justice Williams dismisses the indictment on the ground that other than legal evidence was received and considered by the grand jury, and directing that the case be resubmitted to the grand jury now sitting, or to the next grand jury that shall sit in New York.

Assistant District Attorney James W. Osborne, when informed of the grounds given by Judge Williams for his decision in the Molineux case said:

"This decision is really in our favor. Judge Williams directs us to resubmit the case to the grand jury. This virtually is only an extra precaution that he holds should be taken. We shall lose no time in presenting the case again to the grand jury."

"Molineux will not be discharged. The court's decision virtually directs us to hold him until the grand jury acts again. Until I confer with District Attorney Gardiner I cannot say when the case will be taken before the grand jury again. I take Judge Williams' decision to mean that he wants us to guard at the start against later defeat on technical points. We shall have a stronger case than ever when we go before the grand jury this time."

No Memorial Day Race Meet.
New York, April 13.—By a vote

of sixteen to nothing the Associated Cycling clubs, of New York, decided at a special meeting last night not to propose a race meeting on memorial day. During the meeting it was declared that the offer to guarantee the association from liability in a race meet had come from President Queenan, of the league of American Wheelmen. The speeches at the meeting were all hostile to the L. A. W.

BOWSER WORKS.

Mr. Bowser Considering Advise-
bility of Incorporating.

Would Enjoy Privileges Not Allowed to
Partnership Concerns. No Papers
Drawn Up.

The reports in the city papers that the F. S. Bowser & Co. Oil Tank works will be incorporated and that the papers are being drawn up is without foundation. Mr. Bowser had been considering the advisability of changing the company from a partnership concern into an incorporated company, as by doing that the stock holders would be entitled to many privileges not enjoyed by partners, but no papers have been drawn up and may not be. Should the company be incorporated Mr. Bowser will own the controlling interest.

THE COURTS.

Judge Dawson Renders Verdict
in Thompson Ditch Case.

Cross-Complaint Filed in the Ryus
Divorce Case—Court Items of
Interest.

In the superior court Judge Dawson rendered judgment on the verdict in the Thompson ditch case and remanded the case back to the county commissioners with instructions for them to establish the ditch in accordance with the report of the reviewers.

The case may be appealed to the supreme court, although it went up once before and was sent back because of lack of jurisdiction. The ditch has been in litigation about two years.

A CROSS EXAMINATION.

In the divorce case of Diantha A. Ryus vs. William H. Ryus defendant has filed a cross-complaint in which he denies all the allegations of the original complaint. He alleges that plaintiff has been cruel and inhuman in her treatment of defendant, that she called him vile and abusive names, accused his relatives of immoral conduct and made life generally bad for him. He claims that during their thirty-three years of married life he accumulated some money and made improvements on a lot owned by plaintiff and for these improvements now asks for a judgment of \$2,500. The couple are the parents of two children, both of whom are grown. G. W. Loutitt passed the cross-complaint.

James Read entered a plea of guilty to a charge of assault and battery of August Ott and was fined \$50 by Judge O'Rourke and sentenced to serve sixty days in jail. Read and Ott were principals in a fight which occurred near the St. Joseph river dam one Sunday a few weeks ago.

NOTES.

The case of Robertson vs. Moderwell has been sent to Huntington county on change of venue.

Henry C. Schrader has been appointed commissioner to sell property in the case of Anna B. Crumet et al. vs. John Van Hoesen et al. His bond was fixed at \$4,000.

Judge O'Rourke overruled the motion for a new trial in the case of Weaver vs. Grover and rendered judgment for \$100 for plaintiff. Notice of appeal was given by defendant's attorneys.

Christian Pirson has commenced suit to foreclose mortgage against the Riverview Farm company. Demand, \$3,800.

Charles Schmidt's troubles are temporarily over. He was under surety of peace until yesterday when his bondsman, L. A. Centlivre, withdrew from his bond and the chances were that Schmidt would be looked up. Mrs. Schmidt, who had commenced the proceedings, relented, however, and withdrew her complaint. The ex-husband was then released without bond.

John H. Brannan, administrator de bonis don of the estate of James Franklin Smothers, deceased, sues Benjamin McQuiston and T. E. Ellison for partition of real estate. Breen & Morris are attorneys.

In the case of Kreibbaum against Martin, Judge O'Rourke ruled for the plaintiff, granting judgment for \$24.52.

ADMIRAL KAUTZ TO BE UPHELD

His Entire Course Fully
Approved.

ACTED UPON ORDERS

German Views are Good
Tempered.

The Press Generally Makes no
Effort to Condone Action
of Any German.

WASHINGTON, April 13.—Admiral Kautz's actions in Samoa, as far as they are set out in official dispatches and the newspaper reports, are fully approved. He was instructed by the last mail steamer from Auckland to avoid needless collisions, but to protect properly and life until the three treaty powers decided how to deal with the situation.

No further instructions have yet been sent to him, and if any go forward by cable within the next twenty-four hours, which is the limit of time available if the outgoing steamer is to be caught at Auckland, they will be simply a repetition of the original orders.

Department officials point out that from the accounts so far received the admiral appears to have acted in conjunction with the British forces only in pursuance of the policy of defense of foreign interests. It is expected that he will not elate his efforts to secure the restoration of peace and it is probable that when the high commission arrives at Apia it will find its work facilitated through the suppression of the rebellion.

The commissioners are not likely to start from San Francisco on the steamer of the 15th inst., as the instructions of the members have not been imparted.

TEMPER OF BERLIN.

The Latest Samoa Outbreak Looked
Upon With Calmness.

BERLIN, April 13.—The United States embassy, at noon today, gave the correspondent here of the Associated Press the following statement:

"We have received from the foreign office an account of the latest conflict in Samoa. The German government expressed sympathy and took occasion to urge the adoption of the unanimity rule in the findings of the Samoa commission, in order that the German commissioner, Baron Speck von Sternberg, might sail for Samoa at the earliest moment possible. The German government urged that only the early arrival of the commission will prevent further serious bloodshed. This morning Baron von Buelow informs the American ambassador that Great Britain has at last agreed to the unanimity rule, the United States also agreeing, and that the commission can probably proceed to the islands without delay."

The German press this morning gives yesterday's news calmly and mostly without comment.

The Cologne Gazette remarks: "We need not say that if the guilt of the manager of the German plantation is proven, Germany will approve of his arrest and demand for his punishment. We will not defend the behavior of a German abroad merely because he is a German."

The Cologne Gazette, also admits that Dr. Raefael (the German president of the municipal council of Apia) acted illegally in closing the chief justice's office and says:

"The other two powers, we hope, will also note the illegal acts of their representatives."

The Tagblatt calls the arrest of the German manager of the plantation in which the ambuscade took place, "illegal," saying:

"Our consul is the only competent judge."

The Lokal Anzeiger represses the opinion that the affair shows the need of prompt action by the commission.

The Vossische Zeitung says: "Whatever action the German government takes it will find itself fully backed up by the reichstag."

A number of leading papers, like the Deutsche Zeitung, Schlesische Zeitung and Hanover Courier, point out the necessity of a larger navy and urge the hastening of the present increase in its strength and the adoption of an additional bill for the construction of new vessels.

BIDS WERE CLOSE.

Ed. M. Wilson Was Awarded One Street in
Lafayette.

Ed. M. Wilson, state agent for the

Now Castle Asphalt Block company, returned from Lafayette this morning, where he was a bidder on the street paving to be done in that city this week. Three sheet companies and two block companies bid on the three streets. The Barber people were awarded two streets at \$1.98 and \$5.04 per foot front. The New Castle people bid on the same streets \$5.05 and \$5.05 per foot front. The third contract was awarded to the New Castle company, the bids being a tie at \$1.99 per foot front. The residents on the street were in favor of block and the council therefore made the award to the company represented by Mr. Wilson. The cost per yard of the street averaged about \$1.96.

AIM WAS DEADLY.

Detective Doyle, of Brooklyn,
Kills a Man.

Refused To be Ejected from a Saloon Where
He Was Loafing With a Woman and
Used His Gun.

New York, April 13.—Detective James Doyle, of the central office, Brooklyn, shot and killed Martin Carey in Gustavo Spohr's saloon, Montrose avenue, Williamsburg, at 3 o'clock this morning. The bullet pierced the victim's heart.

He also shot and seriously wounded August Miller, the ball going through his left hand. Another shot fired missed its intended victim.

The detective, in citizen's dress, had been in the saloon two hours drinking with a young woman who gave her name as Maggie Miller. When Spohr announced his intention to close the saloon Doyle refused to leave with his companion. An altercation ensued and Spohr, his wife and two men, who were in the place, attempted to put Doyle out. The latter and his companion retreated to the rear door and started up a stairway. At the fourth step Doyle stopped, drew a pistol and cried:

"Now come on out here, all of you, and I will kill you all, one at a time."

Carey advanced towards him and as he did so Doyle took deliberate aim at him and fired. Carey gave one scream of agony, clasped his hand to his left breast and with the cry, "My God, I have been killed," staggered from the place.

He ran about seventy-five feet and dropped dead on the sidewalk. The detective did not pause an instant, but fired two more shots. One of them went through August Miller's hand. The other bullet crashed through the doorway.

Police officers who heard the shooting came up and found Doyle hidden in Spohr's apartments. He came out when summoned, but meanwhile he had thrown away the pistol and denied having done any shooting.

The affair attracted a large crowd and the police had to hurry Doyle away to save him from summary vengeance.

PAIR OF THEM.

Thomas Mulhearn Injured in a Runaway
—Another on Main Street.

Thomas Mulhearn, a saloonkeeper at 117 Fairfield avenue, was painfully injured in a runaway about 6 o'clock last evening. He was driving a horse attached to a spring wagon when the animal became frightened and darted south on Fairfield avenue. As it turned east on Williams street the wheels of the wagon struck the curb, throwing Mr. Mulhearn out and cutting his head severely.

The injured man was removed to his home and Dr. Boswell attended him. Other injuries were found upon his chest, and for a time his condition was thought to be dangerous. Dr. Boswell informs THE SENTINEL that Mulhearn is considerably improved today and his injuries are not now regarded as serious.

A lively team dashed west on Main street without a driver yesterday afternoon, and in crossing the river bridge, one of the horses fell and was badly hurt. The carriage was also damaged to some extent.

GAS REBATE.

Committee Will Meet Tonight and Draft
a Communication.

The committee appointed by the mass meeting Monday night, to request of the gas company a rebate for consumers who were forced to use wood or coal, in lieu of gas, will meet this evening, at the office of City Clerk Manning. Captain Dougall and Councilman Hoesy have issued a call for the meeting. The committee will formulate a demand to the gas company in writing, and request a reply in like form. The committee's action will be communicated to the officers of the gas company tomorrow, and as soon as a reply is received the committee will be called together again to formulate a report.

Justice Bullerman is in Decatur today.

STRIPPED OF THEIR GUNS

Spanish Gunboats Were
Looted.

A QUEER INCIDENT

Fleet Had Been Sold to a
Manila Man.

Their Guns and Ammunition
Was Mysteriously Captured
by the Rebels.

MANILA, April 13.—9:15 A. M.—Francisco Reyes, the man who recently purchased the Spanish gunboats at Zamboanga, Island of Mindanao, has received advices to the effect that the fleet sailed for Manila and returned a few days later with the vessels stripped of their guns and ammunition.

The purchasers' agents and native crews for the vessels, on board the American steamer Buena, were conveyed to Zamboanga by the United States cruiser Boston and were instructed to wait for the arrival there of the United States gunboat Petrol.

Instead of so doing, after the Boston sailed from Zamboanga, the Spaniards transferred the gunboats to the agents of Senor Reyes, and the fleet left Zamboanga unescorted. They soon returned and reported having been boarded by rebels who removed the gunboat armaments. If the instructions of the American naval commander had been obeyed their capture would have been impossible.

Zamboanga is fortified and still garrisoned by Spaniards and the affair is regarded as suspicious.

AFRAID OF YANKEE ENERGY.

Mexican Paper Thinks Too Much Money
Is Being Invested There.

CITY OF MEXICO, April 13.—The reported sale to C. P. Huntington of the iron mountain at Durango elicits savage comment from the ultra Catholic dailies. El Pais, which is a penny paper, says:

"In order to take possession of our country the Yankee has for some years past employed the most ignominious as well as the most silent methods. He is buying us up, deeming us unworthy even for fighting. He takes advantage of our hunger and exploits our lack of patriotism. He flings us a few gold coins in order to become the owner of the great and inalienable wealth of Mexico. Day by day the best rural, city and mining properties, the safest and most profitable business, are finding their way imperceptibly into his hands, so that just as the trees are divested of their leaves, Mexico is losing her belongings one by one, and is being reduced to the condition of a mendicancy, in the presence of the Yankee."

BOLD BURGLARY.

Watches and Cash Stolen From Henry
Schwako Wednesday Morning.

A daring burglary occurred at the residence of Henry Schwako, corner of Poplar and Oakley streets, at an early hour yesterday morning. Mr. Schwako is a musician and returned from an engagement at 1 o'clock. Some time after that hour burglars entered the house by the use of a skeleton key. Mr. Schwako's clothing was at the foot of his bed and from his pockets the burglars abstracted two gold watches, about \$8.75 in cash and several small articles. The burglars departed without arousing any member of the family.

A HAPPY OCCASION.

Prof. Duemling Celebrates Twenty-Fifth
Anniversary at Concordia.

This has been an auspicious and happy day in the life of Professor Herman Duemling, of Concordia college, and made so by the fact that it is the twenty-fifth anniversary of his connection with the faculty of that institution.

This morning at 9 o'clock Professor Duemling was reminded of the occasion, when he was met in the large hall by the faculty and students who extended him cordial greeting through Professor Zucker, who delivered a very felicitous speech. The day was made a holiday in honor of the event.

A son was born yesterday to Mr. and Mrs. William C. Muehlenbruch, of East Jefferson street.

Smallpox on a Liner.

New York, April 13.—The North German Lloyd steamer Lahn, which arrived today from Bremen and Southampton, is detained at quarantine, owing to the fact that there are several cases of smallpox on

board. The steamer will be thoroughly disinfected and cleansed before she is permitted to proceed to her pier.

TO SAVE THE BIRDS.

Branch of the State Audubon Society
Organized Yesterday.

At a meeting held at city hall yesterday, a local branch of the State Audubon society was organized, with about twenty-five members. The society has for its object the protection of our song birds, and it is expected that the membership will be largely increased within a short time. Alexander Johnson, president at yesterday's meeting, and Rabbi Cohn was chosen secretary. Mrs. R. S. Taylor, who is vice president of the state society, explained the nature and objects of the organization, and a constitution and by-laws were adopted. Alexander Johnson was elected president, Mrs. W. P. Cooper, vice president, Mrs. R. S. Taylor, secretary and treasurer. Rabbi Cohn, Mrs. T. E. Ellison and L. C. Stapleford were elected to serve on the executive committee. A vice president from each township in the county will be appointed later. Those who desire to become members of the society are requested to notify Mrs. Taylor to that effect. The executive committee will hold a meeting in the near future, when plans for successfully carrying out the work throughout the county will be perfected.

GOOD FEELING.

McKinley and Loubet Exchange
Greetings.

Presidents of United States and France
Polite to Each Other on Ending of
the Spanish War.

WASHINGTON, April 13.—The state department today made public the following message from President Loubet, of France, in reply to that sent yesterday by President McKinley:

"Paris, April 12.—To His Excellency, William McKinley, President of the United States, Washington:—I am deeply touched by the sentiments which your excellency was pleased to express towards me on the occasion of the signing of the ratifications of the treaty of peace between the United States and Spain, and I heartily thank you therefor. I especially desire to assure your excellency of the sincere desire of the government of the republic and its president constantly to draw closer the bonds of traditional friendship which have so long united the two great republics."

"EMILE LOUBET."

The message sent yesterday by the president was as follows:

"Department of State, Washington, April 12, 1899. His Excellency, Emile Loubet, President of the French Republic, Paris:—On this auspicious occasion of the consummation of peace between the United States and Spain, I beg in the name of this government and people and in my own to express my high appreciation of the part filled by the representative of France in promotion of this happy result. In this kindly office so performed my countrymen will see another link in the amity that joins the two nations."

"WILLIAM McKINLEY."

TO GET BEST OF A TRUST.

Cleveland School Director Urges City Own-
ership of Furniture Plant.

CLEVELAND, April 13.—Director H. Q. Sargent, of the Cleveland public school says, in the event of a school furniture combine being formed, that the city will make its own school furniture.

The director added: "The trust hopes to make a big profit by selling school furniture to Cleveland at advanced prices, but it shall not if I can help it. If there is no way to get the best of the combine that put up prices the city should make its own school furniture."

"Municipal ownership of a school furniture plant might prove a good thing. It would save the taxpayers many a dollar. The trust, in its greediness, may force this municipal ownership upon the city."

POLICE COURT.

The Wool Thieves' Bonds Fined at \$500
Each—Pair of Drunks.

Acting Mayor Huser this morning heard the evidence in the cases against John Carl and John Hueston, who are charged with stealing wool from Weil Bros.' warehouse. The men were not represented by attorneys and Carl refused to plead. Hueston admitted his guilt, however, but claimed that he was hired by Carl to haul the wool. The horse and wagon belonged to Hueston. After hearing the evidence Justice Huser bound both men over to the circuit court and they went to jail in default of \$500 bail each.

Two drunks were also arraigned, one of whom had been arrested by Superintendent Gorsline and the other by Officer Bloom. They were sent to jail for eleven days each.

IS AN EXPERT ON EMBALMING

Rudolph Spicer Before
War Inquiry.

UNDERTAKER TALKS

Thinks Beef Was Treated
to Embalming.

Dr. Bigelow Testifies on the
Scientific Aspects of Canned
Beef.

WASHINGTON, April 13.—When the court of inquiry convened today Rudolph K. Spicer, funeral director and embalmer of Harrisburg, Pa., testified that he was a member of the Forty-eighth Pennsylvania regiment and served in Porto Rico. He had paid special attention to the meat issue. The cooks had found it necessary to cut off two or three inches of the refrigerator beef because of the greenish discoloration. "I also noticed crystalline scales on this meat," he said. "It was generally in the crevices and joints and it immediately occurred to me that some article like soda or boracic acid had been used on the meat such as we embalmers use on human bodies when they began to crack."

He had eaten of this meat only once and it made him sick. Mr. Spicer found the canned roast beef slimy and disagreeable. Much of it had been thrown away by the men.

The official report of Dr. H. D. Bigelow, of the agricultural department, who was selected to make an investigation of the canned roast beef, was submitted. Dr. Bigelow visited Chicago, Kansas City and Omaha with the court and gave the results of his observations of and experiments upon various samples of beef used by the packing houses in canning.

Dr. Bigelow had been present when beef was selected for canning and he presented numerous tables giving the results of his investigations.

THE DEATHS.

Dora L. Berlin died at 7 o'clock this morning at the home of her father, Henry Berlin, 15 Boone street. Miss Berlin was eighteen years of age. Her illness has been an extended one, and death was due to a complication of diseases. She leaves one sister, Mrs. William Etzold. Miss Berlin was a most estimable young lady and a great favorite among her companions, who have shown her every attention during her long illness. She was a member of all the young peoples' societies of Emanuel's Lutheran church. Funeral services will be held Sunday at 1:30 from the residence, and at 2 from Emanuel's Lutheran church. Rev. C. Gross will officiate, and the interment will be at Concordia cemetery.

FAIRING.

The funeral services of Mrs. Wilhelmina Fahlberg, who died yesterday at the house, 302 Lafayette street, will be held Friday at 2 o'clock from the residence of her brother-in-law, Philip Gable, 74 Jallie street.

SMITH.

Sunday morning, at the home of her mother, Mrs. Cartwright, in New Haven, occurred the death of Mrs. Susan Smith, aged about forty years. Deceased has been a sufferer for some months and her death was due to Bright's disease complicated with heart trouble. She leaves a husband, two sons, Gordon and George, and one step-son, Will. The funeral was held Tuesday from the residence and the remains were laid to rest in the beautiful I. O. O. F. cemetery west of New Haven.

RULO.

Mrs. Mary Rulo died Tuesday afternoon at 4:20, at the home of her son, John Rulo, near New Haven, at the advanced age of 87 years. Death was due to pneumonia. Mrs. Rulo came from Detroit three years ago, and has since made her home with her son. She leaves six daughters and one son. The daughters are Mrs. May Eveland, of this city; Mrs. W. E. Lacey, Mrs. E. F. Riopille and Mrs. Joseph DeLoe, of Detroit; Mrs. Sarah Taylor, of Iowa, and Mrs. Ann O. Watson, who resides in Wisconsin. The funeral services will occur on Friday at 2 o'clock, at the M. E. church at New Haven.

It's time to think of a Stearns

The riding season is at hand. You will soon want a wheel. What wheel? There isn't any other wheel in existence that has quite the character of the Stearns. Not a '98 wheel labeled '99, but an entirely new model. The frame lines are more graceful, and the frame is stronger if anything, the weight is less, the tread is narrower, the wheel is even more beautifully finished, and the construction of the handle-bar grip is new. The entire equipment of Stearns Bicycles, tires, saddles, etc., is the most expensive to be had. Those and many more points of superiority should make you think of a Stearns.

At all events there is no immedi-

The Filipinos are whipped all
right enough, only the poor cusses
don't know it.

In the case of Admiral Dewey,
who regards the talk about his
presidential candidacy as foolish
because he has had nothing to do

whatever duties and destinies may
most urgently beckon the demo-
cratic party in 1900. Such a broad
attitude ought to appeal powerfully
even to Col. Henri Watterson.

The serious objection made by
the Emperor Francis Joseph of Aus-
tria, to the English inheritance tax,
is not due to his desire to interfere
in English affairs, but to the fact
that such tax will compel him to
pay the death duties on the million
dollars which the late empress had
in the bank of England. The em-
peror's suggestion that he is a for-
eigner, and incidentally an emperor,
and so should not be made to pay
the assessment, has been coldly re-
ceived. The case indeed is not a
new one, as it has long been the
custom of foreign royalists to trust
their fortunes to the keeping of the
bank of England.

The oleomargarine problem is
bound to be more or less affected by
the fact that the making of butter
from peanuts, a process which for
some time has been known to be
possible, is now being carried out
on a commercial scale in Kokomo.
Though the product is described as
capable of being kept in any climate
and shipped any distance, none of
it so far as known has yet reached
this city, but it is described as equal
in quality and in the variety of
uses to which it may be put to gen-
uine butter, and its cost is very
much less. If, indeed, peanut butter
has half the qualities and advan-
tages claimed the raising of peanuts
will speedily spring into an industry
of first importance and the oleo-
margarine question will cease to
trouble us.

A LIGUBRIOUS VIEW.

In a recent proclamation setting
apart today, April 13th, as fast day
in the state of New Hampshire,
Governor Rollins takes a very lug-
ubrious view of the religious con-
ditions in that commonwealth. He
makes some striking assertions that
are little less than sensational in
their import. He says:

"The decline of the Christian re-
ligion, particularly in our rural
communities, is a marked feature of
the times, and steps should be
taken to remedy it. No matter
what our belief may be in religious
matters, every good citizen knows
that when the restraining influences
of religion are withdrawn from a
community its decay—moral, men-
tal and financial—is swift and sure.
To me this is one of the strongest
evidences of the fundamental truth
of Christianity. I suggest, that as
far as possible, on fast day, union
meetings be held, made up of all
shades of belief, including all who
are interested in the welfare of our
state, and that in your prayers and
other devotions and in your mutual
counsel you remember and con-
sider the problem of the condi-
tion of religion in the rural commu-
nities. There are towns where no
church bell sounds forth its solemn
call from January to January.
There are villages where children
grow to manhood unchristened.
There are communities where the
dead are laid away without the ben-

ison of the name of the Christ, and
where marriages are solemnized
only by justices of the peace. This
does not augur well for the future.
You can afford to devote one day in
the year to your fellow men, to
work and thought and prayer for
your children and your children's
children."

This is a very solemn setting
forth of conditions that one would
be apt to search for in almost any
other section of the country than
New England. While Governor
Rollins may take an exaggerated
view of the situation, it is quite
certain that he is familiar with the
matters of which he speaks in his
proclamation. Yet, there is a
plausible explanation for such con-
ditions. There has been no pro-
gress for many decades in the rural
and village life of New Hampshire.
Furnus have worn out and the little
hamlets have gone to seed. People
have lost interest in material af-
fairs and grown indifferent
in religious matters. They are
living without purpose. There is
no social vitality. They strongly
exemplify the adage that those who
stand still go backwards. This
holds true in religious as well as in
other human conditions. Industrial
decline begets a slow social degen-
eracy and the religious life must in-
evitably be affected by it. The pro-
cess is slow, but it is sure. It has
been going on in New Hampshire
for a long time. New Hampshire
needs a new progress. Rural and
village industrial life needs rehabili-
tation. Then will follow an intel-
lectual awakening and a religious
quickening. Christianity is an es-
sential condition of the ascent of
life, but it must be knit in with
those natural conditions which also
are essential. Then it constitutes
the truest progress.

MILLION FOR NEW SCHOOL.

The Wallace C. Andrews of New York
Endows an Institution for Girls.

New York, April 13.—Under the
will of Wallace C. Andrews, who
with his wife died in the fire that
destroyed their home in this city
last Friday morning, a sum esti-
mated at \$1,000,000 is made im-
mediately available for founding a
school for girls at Willoughby, Lake
County, Ohio, on the Williams
farm.

The idea of the school is to fur-
nish an elementary education to
girls between the ages of 10 and 16
years and make them independent
and self supporting. One-tenth of
the amount is to be used for the
erection of suitable buildings, and
the remainder to running the school
in case the one-tenth is not suffi-
cient, the executors of the will are
directed to allow the money to ac-
cumulate until enough is at hand.

There are five directors of the in-
stitution, according to Mr Andrews'
intentions. They are to be known
as the board of directors and in-
clude the governor of the state of
Ohio, the congressman from the dis-
trict in which the institution is lo-
cated, the mayor of Willoughby,
the treasurer of Erie county and
Gamaliel S. John. If, owing to
any legal miscalculation, the project
meets with failure, then the money
is to go to the Smithsonian institu-
tion for the foundation of an institu-
tion on similar lines.

The will was filed for probate yester-
day. After making bequests of
\$10,000 to each of his sisters, the
will provides that the residue of the
estate shall be held in trust for the
benefit of his wife during her life.
Upon her death \$500,000 shall be
divided among six relatives named,
among whom is Mrs. Gamaliel S.
John, who perished in the fire, and
Mr. Andrews' sisters, Lucy Ann
Moore and Phoebe R. Moore. All of
the residue of the estate in excess of
\$500,000 shall go to the establish-
ment of the school.

As Mrs. Andrews is dead, the
money for the home is released at
once. Newspaper estimates of Mr.
Andrews' estate agree that it is
worth at least \$1,500,000.

WENT TO DEATH CALMLY.

Satellite of Charles Talbot Dawson, Pitts-
burg Newspaper Man.

Pittsburg, Pa., April 13.—Charles
Talbot Dawson, for twenty-five
years a Pittsburg newspaper re-
porter and editor in this city, was
found dead in bed in his room 28
Federal street. Death was due to
apoplexy. On a table was a let-
ter addressed to the coroner. After
referring to his inability to get
work, Dawson wrote:

"But now I approach the end
calmly. It is with me a logical and
proper thing to do, it is an inevi-
table act, and I end my life with all
my senses about me. No one, how-
ever, can take such a step cheer-
fully. My saddest thought is that
I die in debt. Others must suffer
because I owe them, but what is to
be done?"

The letter was carefully para-
graphed and after the signature
were the figures "30."

Political Argument Results in Murder.

Middlesboro, Ky., April 13.—
August Mullins shot and killed
George Soward, a prominent repub-
lican politician, near Pound Gap,
Va., last night during a political argu-
ment. Mullins escaped.

AID WILL BE GIVEN.

State Department Replies to
Hon. J. M. Robinson.

Dr. Niernman's Appeal for Aid for Des-
titute Americans in Alaska
Brings Fruit.

A short time ago THE SENTINEL
printed a letter from Dr. H. G.
Niernman, of this city, to Congress-
man Robinson appealing for aid for
sick and destitute gold hunters at
Copper Center, Alaska. The matter
was promptly referred to the depart-
ment of state, at Washington, by
Mr. Robinson, with the request that
relief be afforded the suffering ones.
That the appeal has borne fruit is
shown by the following letter which
Mr. Robinson received yesterday:

"Department of State, Wash-
ington, April 10, 1899.—Hon. J. M.
Robinson, Fort Wayne, Ind. Sir:
Referring to your letter of the 23d
ultimo, commanding to my consid-
eration an appeal from Dr. H. G.
Niernman to aid sick and destitute
Americans at Copper Center,
Alaska, and to my reply of March
28th, I have now the honor to in-
form you that I am advised by the
secretary of war that his depart-
ment has issued instructions to the
commanding officer of the Copper
river exploring expedition to fur-
nish in his discretion such relief in
the way of subsistence and medical
treatment as may be found neces-
sary. The war department hopes,
through the medium of this expedi-
tion, to reach the sections of the
country where destitution prevails
and to afford adequate relief for the
same. I have the honor to be, sir,
"Your obedient servant,
"JOHN HAY."

OPENS TONIGHT.

Great Preparations for the Olympia Band
Fair at Randall Hall.

Arrangements for the opening of
the Olympia band fair at Randall
hall this evening are completed.
The hall has been beautifully de-
corated and many handsome booths
are shown. "Bob," the pony, is on
hand, and, together with the beau-
tiful buggy which has been completed
by Roach & Albus, will be the
center of attraction. The band has
prepared special music for the
event, and there will be something
new in the way of entertainment
each evening. Dancing begins at 10
o'clock each night, and all visitors
will be assured of a good evening's
entertainment. The attraction for
Friday evening, April 14th, is a
grand colored cake walk. Professor
Mosen is in charge of this, and he
has secured many prominent
"walkers" from out of the city.
This will be followed on Monday
evening by a grand cake walk for
the "white folks," and finally on
Thursday evening, April 20th, the
"white folks" and the "colored
folks" will have a hot-time cake
walk for a championship prize.

IS IT CURABLE?

A Question Often Asked by Those Afflicted
With Piles.

Is a strained joint curable? Is
local inflammation curable? Of
course, if properly treated. So are
piles.

People become afflicted with piles
and ask some old "chronic" who
has always persisted in the wrong
treatment and naturally discour-
ages them by telling that their case
is hopeless.

They in turn discourage others
and thus a disease that might in
every case be cured by careful and
skillful handling is allowed to sap
the energy of thousands who might
free themselves of the trouble in a
few days.

Pyramid Pile Cure will cure the
most aggravated case of hemor-
rhoids in an astonishingly short
time. It relieves the congested
parts, reduces the tumors instantly
no matter how large, allays the in-
flammation and stops the aching or
itching at once.

Thousands who have resorted to
expensive surgical treatment have
been cured by the Pyramid Pile
Cure—in a number of instances
persons who have spent months in
a hospital under a pile specialist.

It is a remedy that none need
fear to apply even to the worst ag-
gravated, swollen, and inflamed
hemorrhoidal tumors.

If you are afflicted with this stub-
born disease you can master it and
master it quickly.

This remedy is no longer an ex-
periment, but a medical certainty.
It is manufactured by the Pyramid
Drug Co., Marshall, Mich.

Druggists sell it at 50 cents per
box. It is fast becoming the most
popular pile cure the country has
ever known and druggists every-
where are ordering it for their cus-
tomers.

Great Union of Ex Confederates.

CHARLESTON, S. C., April 13.—The
great reunion of ex Confederates
will be celebrated here May 10 to
12. Among the speakers who have
promised to be present are Gen.
John B. Gordon and Gen. Joe
Wheeler. Preparations for the ac-
commodation of the veterans are
well under way. In addition to
\$15,000 already secured for the en-
tertainment of the veterans, the
city has expended \$35,000 in the
erection of a handsome auditorium
with a seating capacity of 7,000.

OVERWORKED WOMEN.

Letters to Mrs. Pinkham From Women Who Have Been Helped From
Sickness to Health.

The ordinary every-day life of most of our women is a ceaseless treadmill of work.
How much harder the daily tasks become when some derangement of the
female organs makes every movement painful and
keeps the nervous system unstrung!

The following letter from Mrs. WALTER S. BANTA,
Sparkill, N. Y., tells the story of many women,
and shows them how to get relief:

"DEAR MRS. PINKHAM:—I cannot thank you
enough for all Lydia E. Pinkham's Vegetable
Compound has done for me. When I wrote to
you I had suffered for years with falling, in-
flammation and ulceration of the womb;
my back ached, and I was so much
distressed I could scarcely walk. I
was a burden to myself and did not
care whether I lived or died."

"I have taken five bottles of your
medicine and it has done wonders for
me as all my friends can testify. I can
now do my own work, and do not know
how to express my gratitude to you for
the good your medicine and advice
have done me. I owe my life to Mrs.
Pinkham."

Mrs. Pinkham's counsel offered free
to all women who need advice about
their health. Her address is Lynn,
Mass. Mrs. P. H. HUTCHINSON, Kel-
lerton, Iowa, tells here in her own
words how Mrs. Pinkham helped her:

"DEAR MRS. PINKHAM:—I was in a
very bad condition before I wrote to
you and began the use of Lydia E.
Pinkham's Vegetable Compound. I
did not know what to do. I suffered
terribly every month, when on my
feet would have such a bearing-down feeling, was very weak, womb was
swollen, back ached, appetite was very poor, also had trouble with my head.
I have taken several bottles of your Compound and cannot say enough in its
favor. It helped more than all the doctors."

Judge the clothing we show this season by the best you ever saw—judge
it by the best you will find. We want critics for customers. Look at the
tailoring—it is as well done as if the suits were for men. Look at the bits of
daintiness—silk embroidery, braiding and what not. Your own careful
fingers would do it no better. We are as proud of this Boys' Clothing as the
boys are who get into it.

THE STANDARD CODE ADOPTED

By Railway Officials at Detroit Meeting.

PUNISH VIOLATORS

Non-Users of Code Will be Prosecuted.

The Panhandle Elects Officers—
News of a General Character.

DETROIT, Mich., April 13.—The members of the American Railway association, which represents 85 per cent. of the 180,000 miles of railroad in this country, met in convention here yesterday in secret session and adopted the report of the special committee on a "standard code" for operating the roads. The representatives, including the presidents, vice presidents, general managers and superintendents, were unanimous in recommending the adoption of the code. By the action taken yesterday the roads which do not follow this recommendation will find themselves liable to lawsuits for not following the "general usage" in providing for the safety of their passenger patrons. It was manifest that the representatives here did not care a rap whether other roads adopted this code or not, as they would hold any individual road liable for accident in case the adopted code was violated. They selected New York city for the semi annual convocation in October, and elected L. F. Loree, of Pittsburg, general manager of the Pennsylvania lines west of Pittsburg, as president; W. H. Baburn, jr., president of the Long Island railroad, as first vice president; J. P. Hanrahan, vice president of the Illinois Central, as another vice president. Rollin H. Wilber, general superintendent of the Lehigh Valley, Bethlehem, Pa., and C. G. Waldo, general manager of the Cincinnati, Hamilton and Dayton, were elected as members of the executive committee. The new committee on train rules will be selected by the officials of the Illinois Central, Chicago, Burlington and Quincy, and the Atlanta and Cincinnati lines. There were 125 delegates present.

Second-Class Rates Stay.

At the meeting yesterday of the Central Passenger association a proposition to abolish second-class rates between Chicago and New York was tabled by the unanimous votes of the differential lines. Their action in this matter makes it plain that they are in a mood to fight any measure advocated by the standard lines that tends to put all the roads on an equality so far as rates are concerned. The second class rates are \$17 by the standard and \$16 by the differential lines. The second-class rate of the standard line is \$1 less than the first-class rate of the differential roads, while the only difference to the passenger is that the holder of a second class ticket cannot ride in Pullman sleepers.

Annual Meeting of Panhandle.

The annual meeting of the Pittsburg, Cincinnati, Chicago and St. Louis Railway company was held in Pittsburg Tuesday. The only incident of the session was a protest entered by John H. Judge, of New York, who acted in behalf of the minority stockholders, against the adoption of the report submitted by President Frank Thomson, because of the expenditures recommended by him which would, Mr. Judge claimed, work to the detriment of the minority holders and deprive them of dividends. No action was taken on the objections made and the report, as submitted, was adopted without discussion. The following directors, whose terms have expired, were re-elected: Frank Thomson, John P. Green, Chas. E. Pugh and N. P. Shortridge. Their new term will expire in April, 1903. The report shows total earnings of \$13,679,577 and total expenses of \$14,147,141.40, leaving net operating results \$5,532,436.48, a decrease of \$162,682.66 as compared with last year. The tonnage transported was 13,468,789 tons, against 11,729,877 in 1897. The number of passengers carried was 7,808,849, an increase of 338,298.

General and Personal.

A new closet for the safe keeping of blue prints has been placed in

the offices of the Pittsburgh Blacksmith shop.

The painters are today repainting the switches in the Wabash yards.

H. Lenker, a truck builder in the Pittsburgh car shops, is sick and off duty.

D. L. Litot, the Pittsburg boiler-maker, is laying off on account of sickness.

J. J. Hennigan, machinist in the Pittsburg shops, returned to work this morning.

R. G. McAfee, a helper in the Pittsburg blacksmith shop, is off duty on account of sickness.

Harry Fitzpatrick went east on No. 8 last evening on business for the Pennsylvania company.

H. S. Borhek, an axle inspector, went to Chicago last evening on business for the Pennsylvania company.

H. C. Kramer, the Pittsburg machinist, who had been off duty several days on account of sickness, returned to work today.

Engineers M. V. Shaver and William Haenel and Fireman Weissell and M. Griley, of the Nickel Plate, are taking a lay off to rest up.

Engideor Pat Donahue, of the Nickel Plate, who had been laying off on account of the sickness of his child, has reported for duty.

Engine 165 has been turned out of the Nickel Plate shops at Stony Island after a complete overhauling and is in service on the road again.

J. Henry and W. Fetters, the former of the car machine shop and the latter employed in the Pittsburg planing mills, are laying off today.

Ed Flavin, a boilermaker from Tecumseh, Mich., has accepted a position in the Wabash shops and will probably go to work tomorrow.

The Bass Foundry and Machine company today shipped two 100-horse power boilers to the Findlay Crushed Stone company, Findlay, Ohio.

The new interlocking plant at the crossing of the Pittsburg, Fort Wayne and Chicago and the Big Four at Warsaw, Ind., was put in operation on Monday.

Darald Graybill, a new Pennsylvania fireman, has been transferred to the Cleveland and Pittsburg division and left yesterday for the scene of his new duties.

Walter Smith, of Philadelphia, who had been visiting his uncle, Captain H. M. Dahl, foreman of the air brake department of the Pittsburg shops, returned to his home last evening.

Ed Pressler, who was firing an engine on the Texas Pacific last winter, has returned to the city. Ed is a good base ball player and will play with the Maroons, of the Robison Park league, this season.

Theodore Lincoln has resigned his position as machinist at the Wabash shops and it is said that he will leave in a few days to join the Fort Wayne colony in the Grand Trunk shops at Port Huron, Mich.

Adam Collis, the Pittsburg machinist received a telegram yesterday afternoon announcing the death of his sister at Altoona, Pa. Mr. Collis left on Pennsylvania train No. 8 last evening to attend the funeral.

Patrolman Spanler, of Captain Stoll's force, fell while attempting to board a moving Pennsylvania freight train at Warsaw last night and had his knee cap fractured. The injured man was brought to this city and taken to Hope hospital.

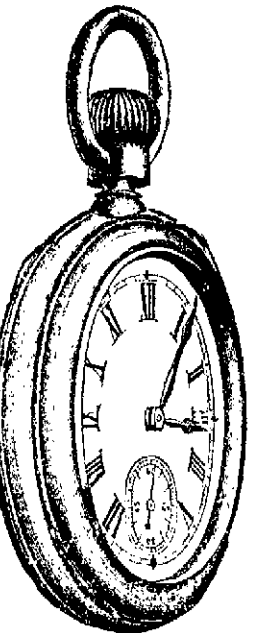

J. B. Barnes, superintendent of motive power of the Wabash, will next week turn out of the company's shops at Springfield a large eight-wheel passenger engine, with seventy-three-inch driving wheels, which, it is expected, will be a very fast runner.

On Saturday a special train on the Wabash made the run from Buffalo to Detroit, 525 miles, in twelve hours and thirty-five minutes, stops to be deducted. The 272 miles from Detroit to Chicago were covered in five hours and forty-five minutes, the time required to make seven stops to be deducted.

Four locomotives have been ordered sent to Chicago to be put in service on the elevation of the Pennsylvania tracks in that city. Stone abutments will be built on each side of the right of way and two of the locomotives will be used on sand trains to fill up between the abutments. The other engines will be used in "spotting" cars in the sand pit at Tolleston.

Superintendent C. D. Gorham, Car Accountant J. W. Robertson, Master Mechanic George James, Superintendent of Telegraph Evans, General Roadmaster Hoyt, Road Supervisor McDonald and Traveling Freight Agent Tennent left this city on a special train yesterday

Stratton Mines Sold.

DENVER, Col., April 12.—A private cablegram from London says W. S. Stratton has sold his famous Cripple Creek gold mine, the Independence, to the Venture company of London. The price is not stated but it is believed to be not less than \$2,000,000 and it may be much larger if all his Cripple Creek property is included in the sale.

No Right to Ugliness.

The woman who is lovely in face form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. SUCCESS.

"It lies through two swing doors, swung, too: The attendance is always full. Some get there by the door marked 'push' And some by the one labeled 'pull.'"

We're "pushing" our GO-CARTS and BABY CABS to the front. Pushing the same line on which we had such a big success last season.

"WAKEFIELD CABS."

The name itself is guarantee of the highest quality. Cut shows one of the handomest Go-Carts in the entire line. Reed body, cane seat, rubber tire wheels. Notice the heavy closed reed work all around.

A distinct characteristic of all Wakefield Co-Carts and Baby Cabs.

You have possibly found pretty cabs of other makes, but generally they have open work on the sides. Beauty at the expense of substantiality. Is this not a fact? Notice them.

FIGHTING ON THE RED BOOK

Developments in Quay
Trial.

RECORDS ARE GONE.
Hints That Bank Books
Were Burned.

Quay's Attorneys are Zealously
Guarding Against the
Red Book.

PHILADELPHIA, Pa., April 13.—The fourth day in the trial of ex-United States Senator Quay on the charge of conspiracy began promptly at 10 o'clock. The prospect of an endless line of testimony relative to the identification of entries in more than 100 books of the Peoples' bank, through the expected inability of counsel to decide upon a plan to pick out certain books and then save time, was responsible for a light attendance at the opening hour. Mr. Quay arrived early and still wore the same look of nonconcern.

He bustled himself for about five minutes in looking over some mail. Counsel on both sides informed Judge Biddle that they had agreed upon a plan regarding the identification of the entries in the mass of books, which would save considerable time. In pursuance of this all the books were brought into the court.

A. L. Tabor, receiving teller of the bank, testified to the period of time in which he made entries in the bank's book, when, respectively, bookkeeper and receiving teller. He said he had known Cashier Hopkins to make entries in the receiving teller's credit book, and that the cashier had made entries in other books. The witness testified to the correctness of his entries, except upon occasions when he had made clerical errors.

They were always corrected. During the examination of this witness it was developed that the consul of both sides had agreed to abide by testimony as to the time covered in the books instead of personal identification of the entries themselves. Under cross-examination by Mr. Shields, the witness said Mr. Hopkins made entries in the cash book, general ledger, discount book, foreign and domestic bill books, and cashier's check book. The books are incomplete, more than fifty dating prior to 1894 being missing.

Mr. Shields intimated that they had been burned. It was evident from the district attorney's questioning that he was leading to a connection between the "red book," which has not yet been admitted, and the other books of the bank. The lawyers for the defense were on the alert, and every question leading in this direction was fought against.

MOLINEUX SCORES A POINT.
The Case Must be Submitted to the Grand Jury.

WATERBURY, N. Y., April 13.—Justice Pardon C. Williams last night handed down his decision in the motion made to discharge the indictment against Roland Molineux, charged with sending poison to Harry Cornish, which caused the death of Mrs. Adams in New York last December. Justice Williams dismisses the indictment on the ground that other than legal evidence was received and considered by the grand jury, and directing that the case be resubmitted to the grand jury now sitting, or to the next grand jury that shall sit in New York.

Assistant District Attorney James W. Osborne, when informed of the grounds given by Judge Williams for his decision in the Molineux case said:

"This decision is really in our favor. Judge Williams directs us to resubmit the case to the grand jury. This virtually is only an extra precaution that he holds should be taken. We shall lose no time in presenting the case again to the grand jury."

"Molineux will not be discharged. The court's decision virtually directs us to hold him until the grand jury acts again. Until I confer with District Attorney Gardner I cannot say when the case will be taken before the grand jury again. I take Judge Williams' decision to mean that he wants us to guard at the start against later defeat on technical points. We shall have a stronger case than ever when we go before the grand jury this time."

No Memorial Day Race Meet.
New York, April 13.—By a vote

of sixteen to nothing the Associated Cycling clubs, of New York, decided at a special meeting last night not to propose a race meeting on Memorial day. During the meeting it was declared that the offer to guarantee the association from liability in a race meet had come from President Queenan, of the leagues of American Wheelmen. The speeches at the meeting were all hostile to the L. A. W.

BOWSER WORKS.
Mr. Bowser Considering Advise-
bility of Incorporating.

Would Enjoy Privileges Not Allowed to
Partnership Concern—No Papers
Drawn Up.

The reports in the city papers that the F. S. Bowser & Co. Oil Tank works will be incorporated and that the papers are being drawn up is without foundation. Mr. Bowser had been considering the advisability of changing the company from a partnership concern into an incorporated company, as by doing that the stock holders would be entitled to many privileges not enjoyed by partners, but no papers have been drawn up and may not be. Should the company be incorporated Mr. Bowser will own the controlling interest.

THE COURTS.
Judge Dawson Renders Verdict
in Thompson Ditch Case.

Cross-Complaint Filed in the Ryus Di-
vorce Case—Court Items of
Interest.

In the superior court Judge Dawson rendered judgment on the verdict in the Thompson ditch case and remanded the case back to the county commissioners with instructions for them to establish the ditch in accordance with the report of the reviewers.

The case may be appealed to the supreme court, although it went up once before and was sent back because of lack of jurisdiction. The ditch has been in litigation about two years.

A CROSS EXAMINATION.

In the divorce case of Diantha A. Ryus vs. William H. Ryus defendant has filed a cross-complaint in which he denies all the allegations of the original complaint. He alleges that plaintiff has been cruel and inhuman in her treatment of defendant, that she called him vile and abusive names, accused his relatives of immoral conduct and made life generally bad for him. He claims that during their thirty-three years of married life he accumulated some money and made improvements on a lot owned by plaintiff and for these improvements now asks for a judgment of \$2,500. The couple are the parents of two children, both of whom are grown. G. W. Loutitt penned the cross-complaint.

READ SENTENCED.

James Read entered a plea of guilty to a charge of assault and battery of August Ott and was fined \$50 by Judge O'Rourke and sentenced to serve sixty days in jail. Read and Ott were principals in a fight which occurred near the St. Joseph river dam one Sunday a few weeks ago.

NOTES.

The case of Robertson vs. Modorwell has been sent to Huntington county on change of venue.

Henry C. Schneider has been appointed commissioner to sell property in the case of Anna B. Crumet et al. vs. John Van Housen et al. His bond was fixed at \$1,000.

Judge O'Rourke overruled the motion for a new trial in the case of Weaver vs. Grover and rendered judgment for \$100 for plaintiff. Notice of appeal was given by defendant's attorneys.

Christian Pirson has commenced suit to foreclose mortgage against the Riverview Farm company. Demand, \$3,800.

Charles Schmidt's troubles are temporarily over. He was under arrest of peace until yesterday when his bondsman, L. A. Cantilero, withdrew from his bond and the charges were that Schmidt would be locked up. Mrs. Schmidt, who had commenced the proceedings, relented, however, and withdrew her complaint. The ex-husband was then released without bond.

John H. Brazen, administrator of the estate of James Franklin Smith, deceased, sues Benjamin McQuiston and T. E. Ellison for partition of real estate. Breen & Morris are attorneys.

In the case of Kreibbaum against Martin, Judge O'Rourke ruled for the plaintiff, granting judgment for \$24.52.

ADMIRAL KAUTZ TO BE UPHELD

His Entire Course Fully
Approved.

ACTED UPON ORDERS
German Views are Good
Tempered.

The Press Generally Makes no
Effort to Condone Action
of Any German.

WASHINGTON, April 13.—Admiral Kautz's actions in Samoa, as far as they are set out in official dispatches and the newspaper reports, are fully approved. He was instructed by the last mail steamer from Auckland to avoid needless collisions, but to protect property and life until the three treaty powers decided how to deal with the situation.

No further instructions have yet been sent to him, and if any go forward by cable within the next twenty-four hours, which is the limit of time available if the outgoing steamer is to be caught at Auckland, they will be simply a repetition of the original orders.

Department officials point out that from the accounts so far received the admiral appears to have acted in conjunction with the British forces only in pursuance of the policy of defense of foreign interests. It is expected that he will not state his efforts to secure the restoration of peace and it is probable that when the high commission arrives at Apia it will find its work facilitated through the suppression of the rebellion.

The commissioners are not likely to start from San Francisco on the steamer of the 19th inst., as the instructions of the members have not been imparted.

TEMPER OF BERLIN.

The Latest German Outbreak Looked
Upon With Calmness.

BERLIN, April 13.—The United States embassy, at noon today, gave the correspondent here of the Associated Press the following statement:

"We have received from the foreign office an account of the latest conflict in Samoa. The German government expressed sympathy and took occasion to urge the adoption of the unanimity rule in the findings of the Samoa commission, in order that the German commissioner, Baron Speck von Sternberg, might sail for Samoa at the earliest moment possible. The German government urged that only the early arrival of the commission will prevent further serious bloodshed. This morning Baron Von Dassel informs the American ambassador that Great Britain has at last agreed to the unanimity rule, the United States also agreeing, and that the commission can probably proceed to the islands without delay."

The German press this morning gives yesterday's news calmly and mostly without comment.

The Cologne Gazette remarks: "We need not say that if the guilt of the manager of the German plantation is proven, Germany will approve of his arrest and demand for his punishment. We will not defend the behavior of a German abroad merely because he is a German."

The Cologne Gazette, also, admits that Dr. Ruefelf (the German president of the municipal council of Apia) acted illegally in closing the chief justice's office and says:

"The other two powers, we hope, will also note the illegal acts of their representatives."

The Tagblatt calls the arrest of the German manager of the plantation in which the ambuscade took place, "illegal," saying: "Our consul is the only competent judge."

The Lokal Anzeiger expresses the opinion that the affair shows the need of prompt action by the commission.

The Vossische Zeitung says: "Whatever action the German government takes it will find itself fully backed up by the reichstag."

A number of leading papers, like the Deutsche Zeitung, Schlesische Zeitung and Hanover Courier, point out the necessity of a larger navy and urge the hastening of the present increase in its strength and the adoption of an additional bill for the construction of new vessels.

BIDS WERE CLOSE.

Ed. M. Wilson Was Awarded One Street in
Lafayette.

Ed. M. Wilson, state agent for the

New Castle Asphalt Block company, returned from Lafayette this morning, where he was a bidder on the street paving to be done in that city this week. Three sheet companies and two block companies bid on the three streets. The Barber people were awarded two streets at \$4.98 and \$5.01 per foot front. The New Castle people bid on the same streets \$5.05 and \$5.06 per foot front. The third contract was awarded to the New Castle company, the bids being a tie at \$1.99 per foot front. The residents on the street were in favor of block and the council therefore made the award to the company represented by Mr. Wilson. The cost per yard of the street averaged about \$1.95.

AIM WAS DEADLY.

Detective Doyle, of Brooklyn,
Kills a Man.

Refused to Be Ejected from a Saloon Where
He Was Lounging With a Woman and
Fired His Gun.

New York, April 13.—Detective James Doyle, of the central office, Brooklyn, shot and killed Martin Carey in Gustavo Spohr's saloon, Montrose avenue, Williamsburg, at 3 o'clock this morning. The bullet pierced the victim's heart.

He also shot and seriously wounded August Miller, the bull going through his left hand. Another shot fired missed its intended victim.

The detective, in citizen's dress, had been in the saloon two hours drinking with a young woman who gave her name as Maggie Miller. When Spohr announced his intention to close the saloon Doyle refused to leave with his companion. An altercation ensued and Spohr, his wife and two men, who were in the place, attempted to put Doyle out. The latter and his companion retreated to the rear door and started up a stairway. At the fourth stop Doyle stopped, drew a pistol and fired.

"Now come on out here, all of you, and I will kill you all, one at a time."

Carey advanced towards him and as he did so Doyle took deliberate aim at him and fired. Carey gave one scream of agony, clasped his hand to his left breast and with the cry, "My God, I have been killed," staggered from the place.

He ran about seventy-five feet and dropped dead on the sidewalk. The detective did not pause an instant, but fired two more shots. One of them went through August Miller's hand. The other bullet crashed through the doorway.

Police officers who heard the shooting came up and found Doyle hidden in Spohr's apartments. He came out when summoned, but meanwhile he had thrown away the pistol and denied having done any shooting.

The affray attracted a large crowd and the police had to hurry Doyle away to save him from summary vengeance.

PAIR OF THEM.

Thomas Mulhearn Injured in a Runaway
—Another on Main Street.

Thomas Mulhearn, a saloonkeeper at 117 Fairfield avenue, was painfully injured in a runaway about 6 o'clock last evening. He was driving a horse attached to a spring wagon when the animal became frightened and darted south on Fairfield avenue. As it turned east on Williams street the wheels of the wagon struck the curb, throwing Mr. Mulhearn out and cutting his head severely. The injured man was removed to his home and Dr. Boswell attended him. Other injuries were found upon his chest, and for a time his condition was thought to be dangerous. Dr. Boswell informs THE SENTINEL that Mulhearn is considerably improved today and his injuries are not now regarded as serious.

A lively team dashed west on Main street without a driver yesterday afternoon, and in crossing the river bridge, one of the horses fell and was badly hurt. The carriage was also damaged to some extent.

GAS REBATE.

Committee Will Meet Tonight and Draft
a Communication.

The committee appointed by the mass meeting Monday night, to request of the gas company a rebate for consumers who were forced to use wood or coal, in lieu of gas, will meet this evening, at the office of City Clerk Manning. Captain Douglas and Councilman Moser have issued a call for the meeting. The committee will formulate a demand to the gas company in writing, and request a reply in like form. The committee's action will be communicated to the officers of the gas company tomorrow, and as soon as a reply is received the committee will be called together again to formulate a report.

Justice Bullerman is in Decatur today.

STRIPPED OF THEIR GUNS

Spanish Gunboats Were
Looted.

A QUEER INCIDENT
Fleet Had Been Sold to a
Manila Plan.

Their Guns and Ammunition
Was Mysteriously Captured
by the Rebels.

MANILA, April 13.—9:15 A. M.—Francisco Reyes, the man who recently purchased the Spanish gunboats at Zamboanga, I-land of Mindanao, has received advice to the effect that the fleet sailed for Manila and returned a few days later with the vessels stripped of their guns and ammunition.

The purchasers' agents and native crews for the vessels, on board the American steamer Batuan, were conveyed to Zamboanga by the United States cruiser Boston and were instructed to wait for the arrival there of the United States gunboat Petrel.

Instead of so doing, after the Boston sailed from Zamboanga, the Spaniards transferred the gunboats to the agents of Senor Reyes, and the fleet left Zamboanga unescorted.

They soon returned and reported having been boarded by rebels who removed the gunboat armaments. If the instructions of the American naval commander had been obeyed their capture would have been impossible.

Zamboanga is fortified and still garrisoned by Spaniards and the affair is regarded as suspicious.

AFRAID OF YANKEE ENERGY.

Mexican Paper Thinks Too Much Money
Is Being Invested There.

CITY OF MEXICO, April 13.—The reported sale to C. P. Huntington of the iron mountain at Durango elicits savage comment from the ultra Catholic dailies. El Pais, which is a penny paper, says:

"In order to take possession of our country the Yankee has for some years past employed the most ingenious as well as the most silent methods. He is buying us up, deeming us unworthy even for fighting. He takes advantage of our hunger and exploits our lack of patriotism. He flings us a few gold coins in order to become the owner of the great and invaluable wealth of Mexico. Day by day the best rural, city and mining properties, the safest and most profitable business, are finding their way imperceptibly into his hands, so that just as the trees are disfigured by their leaves, Mexico is losing her belongings one by one, and is being reduced to the condition of a mendicancy, in the presence of the Yankee."

BOLD BURGLARY.

Watched and Cash Stolen From Henry
Schwako Wednesday Morning.

A daring burglary occurred at the residence of Henry Schwako, corner of Poplar and Oakley streets, at an early hour yesterday morning. Mr. Schwako is a musician and returned from an engagement at 1 o'clock. Some time after that hour burglars entered the house by the use of a skeleton key. Mr. Schwako's clothing was at the foot of his bed and from his pockets the burglars abstracted two gold watches, about \$5.75 in cash and several small articles. The burglars departed without arousing any member of the family.

A HAPPY OCCASION.

Prof. Deamling Celebrates Twenty-Fifth
Anniversary at Concordia.

This has been an auspicious and happy day in the life of Professor Herman Deamling, of Concordia college, and made so by the fact that it is the twenty-fifth anniversary of his connection with the faculty of that institution.

This morning at 9 o'clock Professor Deamling was reminded of the occasion, when he was met in the large hall by the faculty and students who extended him cordial greeting through Professor Zucker, who delivered a very felicitous speech. The day was made a holiday in honor of the event.

A son was born yesterday to Mr. and Mrs. William C. Muehlenbruch, of First Jefferson street.

Smallpox on a Steer.

New York, April 13.—The North German Lloyd steamer Lahn, which arrived today from Bremen and Southampton, is detained at quarantine, owing to the fact that there are several cases of smallpox on board.

UNDERTAKER TALKS
Thinks Beef Was Treated
to Embalming.

Dr. Bigelow Testifies on the
Scientific Aspects of Canned
Beef.

WASHINGTON, April 13.—When the court of inquiry convened today Rudolph K. Spicer, funeral director and embalmer of Harrisburg, Pa., testified that he was a member of the Forty-eighth Pennsylvania regiment and served in Porto Rico. He had paid special attention to the meat issue. The cooks found it necessary to cut off two or three inches of the refrigerator beef because of the greenish discoloration. "I also noticed crystalline scales on this meat," he said. "It was generally in the crevices and joints and it immediately occurred to me that some article like soda or boracic acid had been used on the meat such as we embalmers use on human bodies when they began to crack."

He had eaten of this meat only once and it made him sick. Mr. Spicer found the canned roast beef slimy and disagreeable. Much of it had been thrown away by the men.

The official report of Dr. H. D. Bigelow, of the agricultural department, who was selected to make an investigation of the canned roast beef, was submitted. Dr. Bigelow visited Chicago, Kansas City and Omaha with the court and gave the result of his observations and experiments upon various samples of beef used by the packing houses in canning.

Dr. Bigelow had been present when beef was selected for canning and he presented numerous tables giving the results of his investigations.

GOOD FEELING.

McKinley and Loubet Exchange
Greetings.

Presidents of United States and France
Exchange Greeting on Ending of
the Spanish War.

WASHINGTON, April 13.—The state department today made public the following message from President Loubet, of France, in reply to that sent yesterday by President McKinley:

"Paris, April 13.—To His Excellency, William McKinley, President of the United States, Washington:—I am deeply touched by the sentiments which your excellency was pleased to express towards me on the occasion of the signing of the ratifications of the treaty of peace between the United States and Spain, and I heartily thank you therefor. I especially desire to assure your excellency of the sincere desire of the government of the republic and its president constantly to draw closer the bonds of traditional friendship which have so long united the two great republics."

"EMILE LOUBET."

The message sent yesterday by the president was as follows:

"Department of State, Washington, April 12, 1899. His Excellency, Emile Loubet, President of the French Republic, Paris.—On this auspicious occasion of the consummation of peace between the United States and Spain, I beg in the name of this government and people and in my own to express my high appreciation of the part filled by the representative of France in promotion of this happy result. In this kindly office so performed my countrymen will see another link in the amity that joins the two nations."

"WILLIAM McKINLEY."

TO GET BEST OF A TRUST.

Cleveland School Director Urges City Own-
ership of Furniture Plant.

CLEVELAND, April 13.—Director H. Q. Sargent, of the Cleveland public school says, in the event of a school furniture combine being formed, that the city will make its own school furniture.

The director added: "The trust hopes to make a big profit by selling school furniture to Cleveland at advanced prices, but it shall not if I can help it. If there is no way to get the best of the combine that put up prices the city should make its own school furniture."

"Municipal ownership of a school furniture plant might prove a good thing. It would save the taxpayers many a dollar. The trust, in its greediness, may force this municipal ownership upon the city."

POLICE COURT.

The Wool Thieves' Band—Fined at \$500
Each—Paid at Drunken.

Acting Mayor Insur this morning heard the evidence in the cases against John Carl and John Hueston, who are charged with stealing wool from Well Bros.' warehouse. The men were not represented by attorneys and Carl refused to plead. Hueston admitted his guilt, however, but claimed that he was hired by Carl to haul the wool. The horse and wagon belonged to Hueston. After hearing the evidence Justice Huser bound both men over to the circuit court and they went to jail in default of \$500 bail each. Two drunks were also arraigned, one of whom had been arrested by Superintendent Gersline and the other by Officer Bloom. They were sent to jail for eleven days each.

STUBBASTY.

THE DEATHS.

Dora L. Berlin died at 7 o'clock this morning at the home of her father, Henry Berlin, 45 Boone street. Miss Berlin was eighteen years of age. Her illness has been an extended one, and death was due to a complication of diseases. She leaves one sister, Mrs. William Etzold. Miss Berlin was a most estimable young lady and a great favorite among her companions, who have shown her every attention during her long illness. She was a member of all the young peoples' societies of Emanuel's Lutheran church. Funeral services will be held Sunday at 1:30 from the residence, and at 2 from Emanuel's Lutheran church. Rev. C. Gross will officiate, and the interment will be at Concordia cemetery.

FUNERAL.

The funeral services of Mrs. Wilhelmina Fehling, who died yesterday at the house, 202 Lafayette street, will be held Friday at 2 o'clock from the residence of her brother-in-law, Philip Gable, 74 Lillie street.

SMITH.

Sunday morning, at the home of her mother, Mrs. Cartwright, in New Haven, occurred the death of Mrs. Susan Smith, aged about forty years. Deceased has been a sufferer for some months and her death was due to Bright's disease complicated with heart trouble. She leaves a husband, two sons, Gordon and George, and one step son, Will. The funeral was held Tuesday from the residence and the remains were laid to rest in the beautiful L. O. O. F. cemetery west of New Haven.

RULO.

Mrs. Mary Rulo died Tuesday afternoon at 4:20, at the home of her son, John Rulo, near New Haven, at the advanced age of 87 years. Death was due to pneumonia. Mrs. Rulo came from Detroit three years ago, and has since made her home with her son. She leaves six daughters and one son. The daughters are Mrs. W. E. Lacey, Mrs. H. F. Ruppilo and Mrs. Joseph Deleslie, of Detroit; Mrs. Sarah Taylor, of Iowa, and Mrs. Ann O. Watson, who resides in Wisconsin. The funeral services will occur on Friday at 2 o'clock, at the M. E. church at New Haven.

STUBBASTY.

Paul Stubbastzy, formerly of this city, died in Milwaukee this morning. The remains will be brought to Fort Wayne Friday morning.

It will lift a great load from the public mind to know that Mrs. Virginia Fair Vanderbilt was supplied by kind friends with a temporary wardrobe after the burning of "Idle Hour," where, with her husband, she was spending her honeymoon. With a margin of a dozen millions of her own to rely on Mrs. Fair Vanderbilt will be able soon to overcome present embarrassments in the matter of dress.

In his letter to the editor of a Milwaukee newspaper, Mr. Bryan sets forth with modesty and, remembering some recent history, with magnanimity a possible course of procedure with respect to those democrats who left the party in 1896 and now want to come back. Mr. Bryan says that it is not in reason that all democrats shall subscribe to all the things declared in the Chicago platform, but that the platform is such that any democrat may subscribe to it in general, with reservations as to particular planks. What Mr. Bryan appears to be eager to have understood is that democrats should get together, accept the last declarations of the party in a spirit of harmony and then agree, when the time comes, upon what the next platform shall be. In short, Mr. Bryan seems largely inclined to make way for

whatever duties and destinies may most urgently beckon the democratic party in 1900. Such a broad attitude ought to appeal powerfully even to Col. Henri Watterson.

The serious objection made by the Emperor Francis Joseph of Austria, to the English inheritance tax, is not due to his desire to interfere in English affairs, but to the fact that such tax will compel him to pay the death duties on the million dollars which the late empress had in the bank of England. The emperor's suggestion that he is a foreigner, and incidentally an emperor, and so should not be made to pay the assessment, has been coldly received. The case indeed is not a new one, as it has long been the custom of foreign royalties to trust their fortunes to the keeping of the bank of England.

The oleomargarine problem is bound to be more or less affected by the fact that the making of butter from peanuts, a process which for some time has been known to be possible, is now being carried out on a commercial scale in Kokomo. Though the product is described as capable of being kept in any climate and shipped any distance, none of it so far as known has yet reached this city, but it is described as equal in quality and in the variety of uses to which it may be put to good butter, and its cost is very much less. If, indeed, peanut butter has half the qualities and advantages claimed the making of peanuts will speedily spring into an industry of first importance and the oleomargarine question will cease to trouble us.

A LUCIDIOUS VIEW.

In a recent proclamation setting apart today, April 13th, as fast day in the state of New Hampshire, Governor Rollins takes a very lugubrious view of the religious conditions in that commonwealth. He makes some striking assertions that are little less than sensational in their import. He says:

"The decline of the Christian religion, particularly in our rural communities, is a marked feature of the times, and steps should be taken to remedy it. No matter what our belief may be in religious matters, every good citizen knows that when the restraining influences of religion are withdrawn from a community its decay—moral, mental and financial—is swift and sure. To me this is one of the strongest evidences of the fundamental truth of Christianity. I suggest, that as far as possible, on fast day, union meetings be held, made up of all shades of belief, including all who are interested in the welfare of our state, and that in your prayers and other devotions and in your mutual counsels you remember and consider the problem of the condition of religion in the rural communities. There are towns where no church bell sounds forth its solemn call from January to January. There are villages where children grow to manhood unchristened. There are communities where the dead are laid away without the ben-

ison of the name of the Christ, and where marriages are solemnized only by justices of the peace. This does not augur well for the future. You can afford to devote one day in the year to your fellow men, to work and thought and prayer for your children and your children's children."

This is a very solemn setting forth of conditions that one would be apt to search for in almost any other section of the country than New England. While Governor Rollins may take an exaggerated view of the situation, it is quite certain that he is familiar with the matters of which he speaks in his proclamation. Yet, there is a plausible explanation for such conditions. There has been no progress for many decades in the rural and village life of New Hampshire. Farms have worn out and the little hamlets have gone to seed. People have lost interest in material affairs and grown indifferent in religious matters. They are living without purpose. There is no social vitality. They strongly exemplify the adage that those who stand still go backwards. This holds true in religious as well as in other human conditions. Industrial decline begets a slow social degeneration and the religious life must inevitably be affected by it. The process is slow, but it is sure. It has been going on in New Hampshire for a long time. New Hampshire needs a new progress. Rural and village industrial life needs rehabilitation. Then will follow an intellectual awakening and a religious quickening. Christianity is an essential condition of the ascent of life, but it must be knit in with these natural conditions which also are essential. Then it constitutes the truest progress.

MILLION FOR NEW SCHOOL.

Late Wallace C. Andrews of New York Endows an Institution for Girls.

New York, April 13.—Under the will of Wallace C. Andrews, who with his wife died in the fire that destroyed their home in this city last Friday morning, a sum estimated at \$1,000,000 is made immediately available for founding a school for girls at Willoughby, Lake County, Ohio, on the Williams farm.

The idea of the school is to furnish an elementary education to girls between the ages of 10 and 16 years and make them independent and self supporting. One-tenth of the amount is to be used for the erection of suitable buildings, and the remainder for running the school. In case the one-tenth is not sufficient, the executors of the will are directed to allow the money to accumulate until enough is at hand.

There are five directors of the institution, according to Mr. Andrews' intentions. They are to be known as the board of directors and include the governor of the state of Ohio, the congressman from the district in which the institution is located, the mayor of Willoughby, the treasurer of Erie county and Gamaliel St. John. If, owing to any legal miscalculation, the project meets with failure, then the money is to go to the Smithsonian institution for the foundation of an institution on similar lines.

The will was filed for probate yesterday. After making bequests of \$10,000 to each of his sisters, the will provides that the residue of the estate shall be held in trust for the benefit of his wife during her life. Upon her death \$500,000 shall be divided among six relatives named, among whom is Mrs. Gamaliel St. John, who perished in the fire, and Mr. Andrews' sisters, Lucy Ann Moore and Phebe R. Moore. All of the residue of the estate in excess of \$500,000 shall go to the establishment of the school.

As Mrs. Andrews is dead, the money for the home is released at once. Newspaper estimates of Mr. Andrews' estate agree that it is worth at least \$1,500,000.

WENT TO DEATH CALMLY.

Suicide of Charles Talbot Dawson, Pittsburg Newspaper Man.

Pittsburg, Pa., April 13.—Charles Talbot Dawson, for twenty-five years a Pittsburg newspaper reporter and editor in this city, was found dead in bed in his room 28 Federal street. Death was due to asphyxiation. On a table was a letter addressed to the coroner. After referring to his inability to get work, Dawson wrote:

"But now I approach the end calmly. It is with me a logical and proper thing to do; it is an inevitable act, and I end my life with all my senses about me. No one, however, can take such a step cheerfully. My adduct thought is that I do in debt. Others must suffer because I owe them, but what is to be done?"

The letter was carefully paraphrased and after the signature were the figures "30."

Political Argument Results in Murder.

AID WILL BE GIVEN.

State Department Replies to Hon. J. M. Robinson.

Dr. Niernann's Appeal for Aid for Destitute Americans in Alaska Brought Fruit.

A short time ago THE SENTINEL printed a letter from Dr. H. G. Niernann, of this city, to Congressman Robinson appealing for aid for sick and destitute gold hunters at Copper Center, Alaska. The matter was promptly referred to the department of state, at Washington, by Mr. Robinson, with the request that relief be afforded the suffering ones. That the appeal has borne fruit is shown by the following letter which Mr. Robinson received yesterday:

"Department of State, Washington, April 10, 1899.—Hon. J. M. Robinson, Fort Wayne, Ind. Sir: Referring to your letter of the 23d ultimo, commending to my consideration an appeal from Dr. H. G. Niernann to aid sick and destitute Americans at Copper Center, Alaska, and to my reply of March 28th, I have now the honor to inform you that I am advised by the secretary of war that his department has issued instructions to the commanding officer of the Copper river exploring expedition to furnish in his discretion such relief in the way of subsistence and medical treatment as may be found necessary. The war department hopes, through the medium of this expedition, to reach the sections of the country where destitution prevails and to afford adequate relief for the same. I have the honor to be, sir, 'Your obedient servant,' 'John Hay.'"

OPENS TONIGHT.

Great Preparations for the Olympia Band Fair at Randall Hall.

Arrangements for the opening of the Olympia band fair at Randall hall this evening are completed. The hall has been beautifully decorated and many handsome booths are shown. "Bob," the pony, is on hand, and, together with the beautiful buggy which has been completed by Ronch & Albus, will be the center of attraction. The band has prepared special music for the event, and there will be something new in the way of entertainment each evening. Dancing begins at 10 o'clock each night, and all visitors will be assured of a good evening's entertainment. The attraction for Friday evening, April 14th, is a grand colored cake walk. Professor Moton is in charge of this, and he has secured many prominent "walkers" from out of the city. This will be followed on Monday evening by a grand cake walk for the "white folks," and finally on Thursday evening, April 20th, the "white folks" and the "colored folks" will have a hot-time cake walk for a championship prize.

IS IT CURABLE?

A Question Often Asked by Those Afflicted With Piles.

Is a strained joint curable? Is local inflammation curable? Of course, if properly treated. So are piles.

People become afflicted with piles and ask some old "chronic" who has always persisted in the wrong treatment and naturally discourages them by telling that their case is hopeless.

They in turn discourage others and thus a disease that might in every case be cured by careful and skillful handling is allowed to sap the energy of thousands who might free themselves of the trouble in a few days.

Pyramid Pile Cure will cure the most aggravated case of hemorrhoids in an astonishingly short time. It relieves the congested parts, reduces the tumors instantly no matter how large, allays the inflammation and stops the itching or itching at once.

Thousands who have resorted to expensive surgical treatment have been cured by the Pyramid Pile Cure—in a number of instances persons who have spent months in a hospital under a pile specialist.

It is a remedy that none need fear to apply even to the worst aggravated, swollen, and inflamed hemorrhoidal tumors.

If you are afflicted with this stubborn disease you can master it and master it quickly.

This remedy is no longer an experiment, but a medical certainty. It is manufactured by the Pyramid Drug Co., Marshall, Mich.

Druggists sell it at 50 cents per box. It is fast becoming the most popular pile cure the country has ever known and druggists everywhere are ordering it for their customers.

Great Union of Ex-Confederates.

CHARLESTON, S. C., April 13.—The great reunion of ex-Confederates will be celebrated here May 10 to 13. Among the speakers who have promised to be present are Gen. John B. Gordon and Gen. Joe Wheeler. Preparations for the accommodation of the veterans are well under way. In addition to \$15,000 already secured for the entertainment of the veterans, the city has expended \$35,000 in the erection of a handsome auditorium with a seating capacity of 7,000.

OVERWORKED WOMEN.

Letters to Mrs. Pinkham From Women Who Have Been Helped From Sickness to Health.

The ordinary every-day life of most of our women is a ceaseless treadmill of work. How much harder the daily tasks become when some derangement of the female organs makes every movement painful and keeps the nervous system unstrung! The following letter from Mrs. WALTER S. BANTA, Sparkill, N. Y., tells the story of many women, and shows them how to get relief:

"DEAR MRS. PINKHAM:—I cannot thank you enough for all Lydia E. Pinkham's Vegetable Compound has done for me. When I wrote to you I had suffered for years with falling inflammation and ulceration of the womb; my back ached, and I was so much distressed I could scarcely walk. I was a burden to myself and did not care whether I lived or died.

"I have taken five bottles of your medicine and it has done wonders for me as all my friends can testify. I can now do my own work, and do not know how to express my gratitude to you for the good your medicine and advice have done me. I owe my life to Mrs. Pinkham."

Mrs. Pinkham's counsel offered free to all women who need advice about their health. Her address is Lynn, Mass. Mrs. P. H. HURTCOVERT, Kellerton, Iowa, tells here in her own words how Mrs. Pinkham helped her:

"DEAR MRS. PINKHAM:—I was in a very bad condition before I wrote to you and began the use of Lydia E. Pinkham's Vegetable Compound. I did not know what to do. I suffered terribly every month, when on my feet would have such a bearing-down feeling, was very weak, womb was swollen, back ached, appetite was very poor, also had trouble with my head. I have taken several bottles of your Compound and cannot say enough in its favor. It helped more than all the doctors."

BOYS' SPRING WEAR

Judge the clothing we show this season by the best you ever saw—judge it by the best you will find. We want critics for customers. Look at the tailoring—it's as well done as if the suits were for men. Look at the bits of daintiness—silk embroidery, braiding and what not. Your own careful fingers would do it no better. We are as proud of the Boys' Clothing as the boys are who get into it.

THE STANDARD CODE ADOPTED

By Railway Officials at
Detroit Meeting.

PUNISH VIOLATORS
Non-Users of Code Will
be Prosecuted.

The Panhandle Electric Officer—
News of a General
Character.

DETROIT, Mich., April 13.—The members of the American Railway association, which represents 85 per cent. of the 180,000 miles of railroad in this country, met in convention here yesterday in secret session and adopted the report of the special committee on a "standard code" for operating the roads. The representatives, including the presidents, vice presidents, general managers and superintendents, were unanimous in recommending the adoption of the code. By the action taken yesterday the roads which do not follow this recommendation will find themselves liable to lawsuits for not following the "general usage" in providing for the safety of their passenger patrons. It was manifest that the representatives here did not care a rap whether other roads adopted this code or not, as they would hold any individual road liable for accident in case the adopted code was violated. They selected New York city for the semi annual conference in October, and elected L. F. Loreo, of Pittsburgh, general manager of the Pennsylvania lines west of Pittsburgh, as president; W. H. Balburn, jr., president of the Long Island railroad, as first vice president; J. P. Hanrahan, vice president of the Illinois Central, as another vice president. Rollin H. Wilber, general superintendent of the Lehigh Valley, Bethlehem, Pa., and C. G. Waldo, general manager of the Cincinnati, Hamilton and Dayton, were elected as members of the executive committee. The new committee on train rules will be selected by the officials of the Illinois Central, Chicago, Burlington and Quincy, and the Atlanta and Cincinnati lines. There were 125 delegates present.

Second-Class Rates Slay.

At the meeting yesterday of the Central Passenger association a proposition to abolish second-class rates between Chicago and New York was tabled by the unanimous votes of the differential lines. Their action in this matter makes it plain that they are in a mood to fight any measure advocated by the standard lines that tends to put all the roads on an equality so far as rates are concerned. The second class rates are \$17 by the standard and \$16 by the differential lines. The second class rates are \$17 by the standard and \$16 by the differential lines. The second-class rate of the standard line is \$1 less than the first-class rate of the differential roads, while the only difference to the passenger is that the holder of a second class ticket cannot ride in Pullman sleepers.

Annual Meeting of Panhandle.

The annual meeting of the Pittsburgh, Cincinnati, Chicago and St. Louis Railway company was held in Pittsburgh Tuesday. The only incident of the session was a protest entered by John H. Judge, of New York, who acted in behalf of the minority stockholders, against the adoption of the report submitted by President Frank Thomson, because of the expenditures recommended by him which would, Mr. Judge claimed, work to the detriment of the minority holders and deprive them of dividends. No action was taken on the objections made and the report, as submitted, was adopted without discussion. The following directors, whose terms have expired, were re-elected: Frank Thomson, John P. Green, Ubas E. Pugh and N. P. Shortridge. Their new term will expire in April, 1903. The report shows total earnings of \$19,679,577 and total expenses of \$14,147,141.40, leaving net operating results \$5,532,436.48, a decrease of \$162,582.66 as compared with last year. The tonnage transported was 13,468,789 tons, against 11,729,877 in 1901. The number of passengers carried was 7,808,849, an increase of 328,298.

General and Personal.

A new closet for the safe keeping of blue prints has been placed in

the office of the Pittsburgh Blacksmith shop.

The painters are today repainting the switches in the Wabash yards.

H. Leuker, a truck builder in the Pittsburgh car shops, is sick and off duty.

D. L. Litot, the Pittsburgh boiler-maker, is laying off on account of sickness.

J. J. Bonnigan, machinist in the Pittsburgh shops, returned to work this morning.

R. C. McAfee, a helper in the Pittsburgh blacksmith shop, is off duty on account of sickness.

Harry Fitzpatrick went east on No. 8 last evening on business for the Pennsylvania company.

H. S. Borhek, an axle inspector, went to Chicago last evening on business for the Pennsylvania company.

H. C. Kramer, the Pittsburgh machinist, who had been off duty several days on account of sickness, returned to work today.

Engineers M. V. Shaver and Wilham Lincoln and Fireman Weissell and M. Geley, of the Nickel Plate, are taking a lay off to rest up.

Engideer Pat Donahue, of the Nickel Plate, who had been laying off on account of the sickness of his child, has reported for duty.

Engine 165 has been turned out of the Nickel Plate shops at Stony Island after a complete overhauling and is in service on the road again.

J. Henry and W. Fetters, the former of the car machine shop and the latter employed in the Pittsburgh planing mills, are laying off today.

Ed Flavin, a boiler-maker from Tecumseh, Mich., has accepted a position in the Wabash shops and will probably go to work tomorrow.

The Bass Foundry and Machine company today shipped two 180-horse power boilers to the Findlay Crushed Stone company, Findlay, Ohio.

The new interlocking plant at the crossing of the Pittsburgh, Fort Wayne and Chicago and the Big Four at Warsaw, Ind., was put in operation on Monday.

Darold Graybill, a new Pennsylvania fireman, has been transferred to the Cleveland and Pittsburgh division and left yesterday for the scene of his new duties.

Walter Smith, of Philadelphia, who had been visiting his uncle, Captain H. M. Dahl, foreman of the air brake department of the Pittsburgh shops, returned to his home last evening.

Ed Prosser, who was firing an engine on the Texas Pacific last winter, has returned to the city. He is a good base ball player and will play with the Maroons, of the Robison Park league, this season.

Theodore Lincoln has resigned his position as machinist at the Wabash shops and it is said that he will leave in a few days to join the Fort Wayne colony in the Grand Trunk shops at Port Huron, Mich.

Adam Collis, the Pittsburgh machinist received a telegram yesterday afternoon announcing the death of his sister at Altoona, Pa. Mr. Collis left on Pennsylvania train No. 8 last evening to attend the funeral.

Patrolman Spanier, of Captain Stoll's force, fell while attempting to board a moving Pennsylvania freight train at Warsaw last night and had his knee cap fractured. The injured man was brought to this city and taken to Hope hospital.

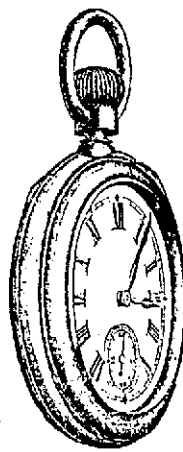

J. B. Barnes, superintendent of motive power of the Wabash, will next week turn out of the company's shops at Springfield a large eight-wheel passenger engine, with seventy-three-inch driving wheels, which, it is expected, will be a very fast runner.

On Saturday a special train on the Wabash made the run from Buffalo to Detroit, 525 miles, in twelve hours and thirty-five minutes, stops to be deducted. The 272 miles from Detroit to Chicago were covered in five hours and forty-five minutes, the time required to make seven stops to be deducted.

Four locomotives have been ordered sent to Chicago to be put in service on the elevation of the Pennsylvania tracks in that city. Stone abutments will be built on each side of the right of way and two of the locomotives will be used on sand trains to fill up between the abutments. The other engines will be used in "spotting" cars in the sand pit at Tolleston.

Superintendent C. D. Gorham, Car Accountant J. W. Robertson, Master Mechanic George James, Superintendent of Telegraph Evans, General Roadmaster Hoyt, Road Supervisor McDonald and Traveling Freight Agent Tennent left this city on a special train yesterday

morning to inspect the Nickel Plate road between here and Chicago. The party arrived in that city late yesterday afternoon.

An official of the Pennsylvania lines west says that during the coming summer a large number of new and much heavier passenger and freight engines will be placed on the lines west of Pittsburgh. The new passenger engines will be of the ten-wheel type, with seventy-two inch driving wheels constructed especially for fast running with heavy trains. While not as heavy as the Class L engines used east of Pittsburgh, they will be better adapted to handling the business of the western lines.

Word has been received in Omaha that W. N. Babcock has been appointed general agent of the Lackawanna road, with headquarters in Chicago. Mr. Babcock has been service on the Alton, the Wabash, the Union Pacific and the Northwestern. He left the general western agency of the latter road to take the position of general manager of the South Omaha stock yards, which position he held for eight years. He was chief of the transportation bureau of the trans-Mississippi exposition.

A company has been organized to build a new road from Toledo to Detroit, which will be six miles shorter than any existing line, free of curves and heavy grades. A fine union railway station is projected for Toledo, in which the Pennsylvania company is interested with the Detroit and Toledo Shortline, and it is stated that the Grand Trunk and the Canadian Pacific will run their trains into the new station. The projectors of the new road have purchased excellent dock facilities at Toledo, having secured the right of way between Toledo and Detroit, and propose to build the road at once. The company which will build the union station will handle at the station the business of the line which is willing to pay for the facilities afforded, but the Pennsylvania company and the Detroit and Toledo Shortline will dictate the policy, they being the promoters of the enterprise.

Stratton Mines Sold.

DENVER, Col., April 12.—A private cablegram from London says W. S. Stratton has sold his famous Cripple Creek gold mine, the Independence, to the Venture company of London. The price is not stated but it is believed to be not less than \$2,000,000 and it may be much larger if all his Cripple Creek property is included in the sale.

No Right to Ugliness.

The woman who is lovely in face form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. GREAT RECORD OF SELLING.

It will be our object, beginning now, in the next month to sell more goods and at lower prices than ever before thought of. We will begin at \$12, \$15, \$18, \$20, \$22, \$24, \$26 to \$40 on spring suitings. Your money has never gone so far before as it will go here. Remember it is Woods, the merchant tailor, who makes these prices. Nobody else does.

For a stylish garment there is no place that confines to the styles as we do. Of course we give you a choice in style if you wish.

An immense line of trouseerings at \$3.50, \$4.00, \$4.50, \$5.00, \$5.50, \$6.00 and \$8.00.

SUCCESS.

"It lies through two swing doors, swung, too; The attendance is always full. Some get there by the door marked 'push' And some by the one labeled 'pull'."

We're "pushing" our GO-CARTS and BABY CABS to the front. Pushing the same line on which we had such a big success last season.

"WAKEFIELD CABS."

The name itself is guarantee of the highest quality. Get shows one of the handiest Go-Carts in the entire line. Reed body, cane seat, rubber tire wheels. Notice the heavy closed reed work all around.

A distinct characteristic of all Wakefield Go-Carts and Baby Cabs.

You have possibly found pretty cars of other makes, but generally they have open work on the sides. Dainty at the expense of substantiality. Is this not a fact? Notice them.

Price of this Fine Go-Cart is only \$6.75.

We have them also as low as \$2.75.
